

Subject Access Request Policy

1 Introduction

1.1 Policy statement

The purpose of this document is to ensure that appropriate procedures are in place at Stockport Medical Group to enable individuals to apply for access to information held about them, and for authorised individuals, information held about other people. This policy is written in conjunction with the following government legislation:

1. The Access to Health Records Act 1990
2. The Access to Medical Reports Act 1988
3. The General Data Protection Regulation
4. The Data Protection Act 2018
5. The Freedom of Information Act 2000
6. The Data Protection (Subject Access Modification) (Health) Order 2000

1.2 Status

This document and any procedures contained within it are contractual and therefore form part of your contract of employment. Employees will be consulted on any modifications or change to the document's status.

1.3 Training and support

The practice will provide guidance and support to help those to whom it applies understand their rights and responsibilities under this policy. Additional support will be provided to managers and supervisors to enable them to deal more effectively with matters arising from this policy.

2 Scope

2.1 Who it applies to

This document applies to all employees of the practice and other individuals performing functions in relation to the practice, such as agency workers, locums and contractors.

2.2 Why and how it applies to them

In accordance with the [General Data Protection Regulation](#) individuals have the right to access their data and any supplementary information held by Stockport Medical Group; this is commonly known as a data subject access request (DSAR). Data subjects have a right to receive:

- Confirmation that their data is being processed
- Access to their personal data
- Access to any other supplementary information held about them

This policy will outline the procedure to access health records at Stockport Medical Group as follows:

- For an individual, for information about themselves
- For access to the health records of a deceased individual

- Access to health records of an individual by an authorised person (by a court), when the individual does not have the capacity to make such a decision
- Organisations requesting information about an individual for employment or insurance purposes (governed by [The Access to Medical Reports Act 1988](#))

The practice aims to design and implement policies and procedures that meet the diverse needs of our service and workforce, ensuring that none are placed at a disadvantage over others, in accordance with the Equality Act 2010. Consideration has been given to the impact this policy might have in regard to the individual protected characteristics of those to whom it applies.

3 Policy

3.1 Right to access

In accordance with the [Access to Health Records Act 1990](#) individuals have the right to access health records held by a healthcare provider that has treated that individual, and/or to access a summary care record (SCR) created by the individual's GP. The [Data Protection Act \(DPA 1998\)](#) gives individuals the right to ask for a copy of the information an organisation holds about them; this right is commonly known as a Data Subject Access Request (DSAR). In the case of health records, a request for information has to be made with the organisation that holds the individual's health records, otherwise known as the data controller.

Stockport Medical Group has mechanisms in place to inform patients of their right to access the information held about them, and how long it will take for a DSAR process to be completed.

With effect from April 2016, NHS practices are, as part of their contractual obligation, to provide patients with access to coded information held within their health records. Such information includes:

- Demographics
- Allergies
- Immunisations
- Medication
- Results
- Procedures
- Values
- Problems/diagnoses
- Other (ethnicity, QOF, etc.)

NHS England have published an information leaflet [Patient Online](#) which provides further detailed information about this obligation and how patients can access their health record online.

There are occasions when a GP may firmly believe that it is not appropriate to share all the information contained in the individual's record, particularly if there is potential for such information to cause harm or distress to individuals, or when the record has information relating to a third party.

Patients may request paper copies of health records and, regardless of the preferred method of access, patients and authorised third parties must initially complete a DSAR form. However, patients may request access to their health records informally;¹ any such requests should be annotated within the individual's health record by the clinician dealing with the patient.

¹ How do I access my medical records (health records)?
<http://www.nhs.uk/chq/pages/1309.aspx?categoryid=68>

3.2 Requests

Requests may be received from the following:

Competent patients may apply for access to their own records or authorise third-party access to their records.

Children and young people may also apply in the same manner as other competent patients and Stockport Medical Group will not automatically presume a child or young person has capacity under the age of 16. However, those aged 11 or over are expected to have the capacity to consent to medical information being disclosed.²

Parents may apply to access their child's health record so long as it is not in contradiction to the wishes of the competent child.³

Parental responsibility for a child is defined in the Children's Act 1989 as 'all the rights, duties, powers, responsibilities and authority, which by law a parent of a child has in relation to a child and his property'. Although not defined specifically, responsibilities would include safeguarding and promoting a child's health, development and welfare, including if relevant their employment records. Included in the parental rights which would fulfil the parental responsibilities above are:

- having the child live with the person with responsibility, or having a say in where the child lives;
- if the child is not living with her/him, having a personal relationship and regular contact with the child;
- controlling, guiding and directing the child's upbringing.

Foster parents are not ordinarily awarded parental responsibility for a child. It is more likely that this responsibility rests with the child's social worker and appropriate evidence of identity should be sought in the usual way.

The law regards young people aged 16 or 17 to be adults for the purposes of consent to employment or treatment and the right to confidentiality. Therefore, if a 16 year old wishes HR or a medical practitioner to keep their information confidential then that wish must be respected.

In some certain cases, children under the age of 16 who have the capacity and understanding to take decisions about their own treatment are also entitled to decide whether personal information may be passed on and generally to have their confidence respected.

Where a child is considered capable of making decisions, e.g. about his/her employment or medical treatment, the consent of the child must be sought before a person with parental responsibility may be given access. Where, in the view of the appropriate professional, the child is not capable of understanding the nature of the application, the holder of the record is entitled to deny access if it is not felt to be in the patient's best interests.

Individuals with a responsibility for adults who lack capacity are not automatically entitled to access the individual's health records. Stockport Medical Group will ensure that the patient's capacity is judged in relation to particular decisions being made. Any considerations to nominate an authorised individual to make proxy decisions for an individual who lacks capacity will comply with the Mental Capacity Act in England and Wales and the Adults with Incapacity Act Scotland.

² Access to health records

<https://www.bma.org.uk/advice/employment/ethics/confidentiality-and-health-records/access-to-health-records>

³ Parental responsibility

<https://www.bma.org.uk/advice/employment/ethics/children-and-young-people/parental-responsibility>

Next of kin have no rights of access to health records.

Police are not able to access health records without first obtaining a court order or warrant. However, health professionals at Stockport Medical Group may disclose relevant information to the police if the patient has consented or if there is overriding public interest. For detailed information, see section 4.1.6 of footnote 2.

Solicitors and insurance companies in most cases will provide the patient's signed consent to release information held in their health record. Stockport Medical Group will ensure that patients are fully aware of the information being provided to the solicitor who is acting for that patient. Stockport Medical Group will ask the Patient for their confirmed consent via a (Targeted) SAR Application form when providing information.

Deceased patients retain the right of confidentiality. There are a number of considerations to be taken into account prior to disclosing the health record of a deceased patient. Such considerations are detailed in the Access to Health Records Act 1990. Under the terms of this Act, Stockport Medical Group will only grant access if you are either:

- a personal representative (executor of the deceased person's estate), or
- someone who has a claim resulting from the death

The medical records of the deceased will be passed to Primary Care Support England (PCSE) for storage. Stockport Medical Group can advise you of who you need to contact in such instances. PCSE will retain the GP records of deceased patients for ten years, after which time they will be destroyed. PCSE have provided an [application form](#) which can be used to request copies of a deceased patient's record.

In the cases of **any** third-party requests, Stockport Medical Group will ensure that the patient has consented to the disclosure of this information by means of a valid signature of the patient.

In accordance with the GDPR, patients are entitled to receive a response within the maximum given time frame of one calendar month from the date of submission of the DSAR. In order to ensure full compliance regarding DSARs, Stockport Medical Group will adhere to the guidance provided in the GDPR. In the case of complex or multiple requests, the data controller may extend the response time by a period of two months. In such instances, the data subject must be informed and the reasons for the extension given.

Under [The Data Protection \(Subject Access Modification\) \(Health\) Order 2000](#), Stockport Medical Group will ensure that an appropriate healthcare professional manages all access matters. At Stockport Medical Group there are a number of such professionals, and wherever possible the individual most recently involved in the care of the patient will review and deal with the request. If for some reason they are unable to manage the request, an appropriate professional will assume responsibility and manage the access request.

Furthermore, to maintain GDPR compliance, the data controller at Stockport Medical Group will ensure that data is processed in accordance with Article 5 of the GDPR and will be able to demonstrate compliance with the regulation (see GDPR policy for detailed information). Data processors at Stockport Medical Group will ensure that the processing of personal data is lawful and at least one of the following applies:

- The data subject has given consent to the processing of his/her personal data for one or more specific purposes
- Processing is necessary for the performance of a contract to which the data subject is party, or in order to take steps at the request of the data subject prior to entering into a contract
- Processing is necessary for compliance with a legal obligation to which the controller is subject
- Processing is necessary in order to protect the vital interests of the data subject or another natural person

3.3 Procedure for access

A DSAR form (Annex C) must be completed and passed to the data controller; all DSARs should be processed free of charge unless they are either complex, repetitive or unfounded (see GDPR Policy). The GDPR states that data subjects should be able to make access requests via email. Stockport Medical Group is compliant with this and data subjects can complete an e-access form and submit the form via email.

Upon receipt of a DSAR, Stockport Medical Group will record the DSAR within the health record of the individual to whom it relates, as well as annotating the DSAR Tracker (log). Furthermore, once processed, an entry onto the health record should be made, including the date the record was collected by the patient or authorised individual.

Individuals will have to verify their ID⁴ at Stockport Medical Group and it is the responsibility of the data controller to verify all requests from data subjects using reasonable measures. The use of the practice's Data Subject Access Request (DSAR) form supports the data controller in verifying the request. In addition, the data controller is permitted to ask for evidence to identify the data subject, usually by using photographic identification, i.e. a driving licence or passport.

The process upon receipt of a DSAR form is broadly illustrated at Annex A, which is an aide-memoire/flow diagram.

A poster explaining how to access health records, for use in waiting-room areas, can be found at Annex B

3.4 Third-party requests

Third-party requests will continue to be received following the introduction of the GDPR. The data controller must be able to satisfy themselves that the person requesting the data has the authority of the data subject.

The responsibility for providing the required authority rests with the third party and is usually in the form of a written statement or consent form, signed by the data subject.

3.5 Summary

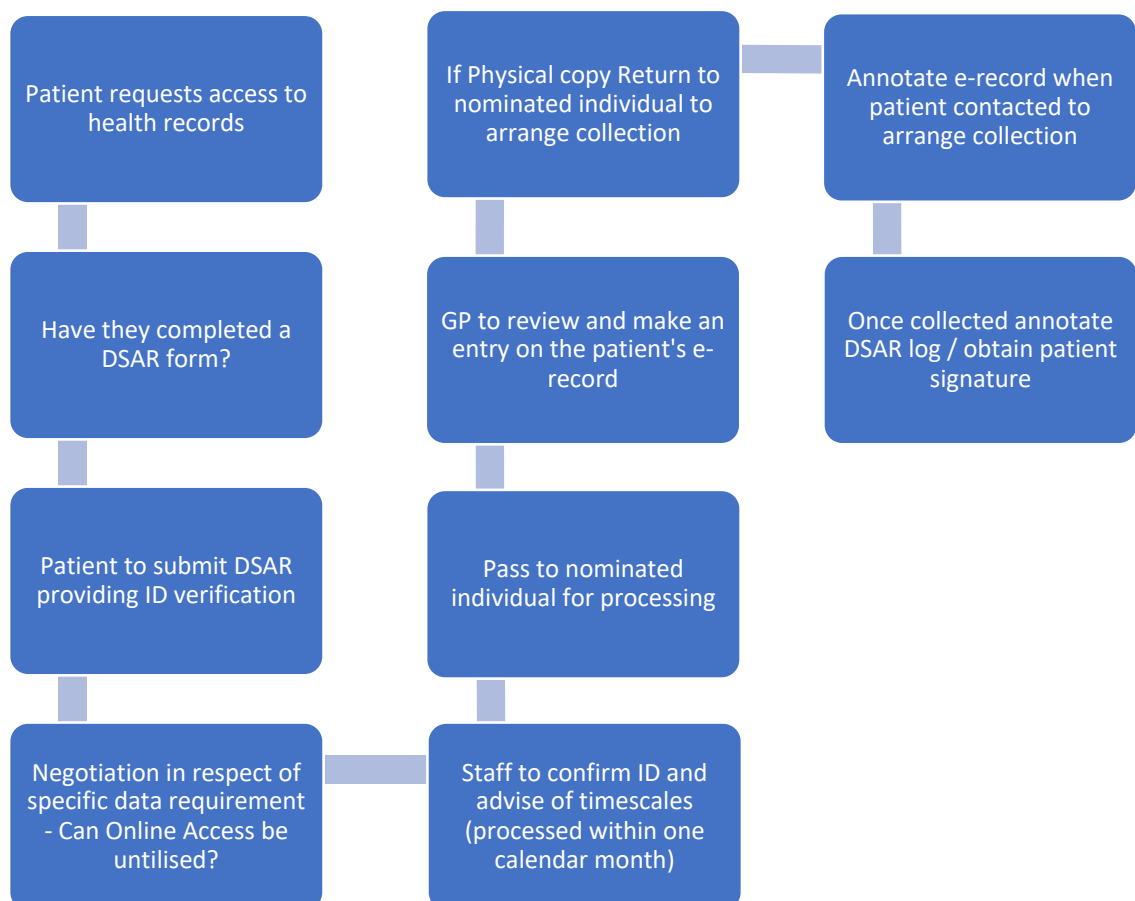

Having a robust system in place will ensure that access to health records is given only to authorised personnel. Patient confidentiality is of the utmost importance and any third-party requests must be accompanied by a valid patient signature. Staff are to adhere to this guidance at all times and where doubt exists, they are to discuss their concerns with the Practice Manager.

ACCESSING YOUR MEDICAL RECORDS AT STOCKPORT MEDICAL GROUP

Introduction

In accordance with the General Data Protection Regulation, patients (data subjects) have the right to access their data and any supplementary information held by Stockport Medical Group; this is commonly known as a data subject access request (DSAR). Data subjects have a right to receive:

- Confirmation that their data is being processed
- Access to their personal data
- Access to any other supplementary information held about them

Options for access

As of April 2016, practices have been obliged to allow patients access to their health record online. This service will enable the patient to view coded information held in their health record. Prior to accessing this information, you will have to visit the practice and undertake an identity check before being granted access to your records.

In addition, you can make a request to be provided with copies of your health record. To do so, you must submit a Data Subject Access Request (DSAR) form; this can be submitted electronically and the DSAR form is available on the practice website. Alternatively, a paper copy of the DSAR is available from reception. You will need to submit the form online or return the completed paper copy of the DSAR to the practice. Patients do not have to pay a fee for a copy of their records.

Time frame

Once the DSAR form is submitted, the maximum time permitted to process DSARs is one calendar month unless exceptional circumstances apply. Stockport Medical Group will advise you at the time of your request should this be that case and the date that you can expect the response.

Exemptions

There may be occasions when the data controller will withhold information kept in the health record, particularly if the disclosure of such information is likely to cause undue stress or harm to you or any other person.

Data controller

At Stockport Medical Group the data controller is Dr Alex Eaton and should you have any questions relating to accessing your medical records, please ask to discuss this with the named data controller.

Dear Title Surname

RE: Subject Access Request

We have received a letter requesting a copy of your medical records.

Under the new GDPR regulation we now require that you sign our Application form for Access to Health Records, attached with this letter.

This surgery now uses eMR, provided by MediData Exchange, to process your Subject to Access Request, also known as a 'SAR'.

Please can you complete **Form 1** and **Form 2** below to enable us to deal with your request utilising our secure portal with Medidata Exchange Ltd.

We will also ask you for an email address and a mobile phone number so that you can access your Patient Record securely on-line. If you do not have an email address or mobile number, then either we can print off a hard copy for you or you can provide family or a relative's details, with their permission.

Please return both forms below to the surgery at your earliest convenience, either by post or email to stoccg.p88632-admin@nhs.net, noting that we must provide the records within 30 days.

Under GDPR Subject Access Request policy we are now required to verify the patient's identity before providing any medical records. A copy of this policy is available on our website.

How does on-line access work?

- When we have processed your SAR you will be sent an email notification with a link to access your record.

Please note: This email may land in your 'junk' email so you will need to click and drag it over to your 'inbox' for the link to work.

- Click the link and follow the on-screen instructions.
- You will be asked to request an 'access code' which will be sent by text message to your mobile phone. This is for security purposes.
- Once you enter this code - you will be able to view, print or download a copy of your medical record. You can also authorise a 3rd party, for example a Solicitor to access this information.

Can the surgery send it directly to the Solicitor?

Under new regulations, we are obliged to send the Patient record to you, as it is your personal information. It is then your choice with whom you would like to share this information.

If you have any difficulties accessing your record, please contact MediData Exchange using this

email: notifyus@medi2data.com

If you have any queries please do not hesitate to contact the surgery.

Yours sincerely,

Current User

FORM 1

**Dual
Consent
Form for
SARs**

Stockport Medical Group can provide your medical records through a secure access portal operated by MediData Exchange Limited (**MediData**), which will provide you with electronic access to your medical records through an encrypted secure access portal. We will not provide your medical records through this secure access portal unless you consent to us doing so.

If you consent to your medical records being provided through the secure access portal, MediData will contact you directly to provide access to the secure access portal where your medical records will be made available in PDF format.

Where MediData need to provide you with access to the secure access portal, they will require your email address, and mobile telephone number to provide you with access by email and text. Please provide your **email address and MOBILE phone number here:**

Please note that unless both fields are correctly completed, MediData will be unable to provide you with secure access to your medical information.

Email Address	
Mobile Phone Number	

I consent to you providing copies of my medical records through the secure access portal operated by MediData, and for MediData to contact me directly to provide access to the medical records requested through a secure '**https://**' url link. I acknowledge that if MediData contact me directly, they will use the contact details provided on this form.

Tick Box: ☐

I consent to my medical records being stored, and to remain available on the secure access portal operated by MediData for a period of six (6) months after being first made available and that MediData can use my personal data to contact me by email and text message to:

- notify me that the six-month period that my medical records are held for is due to expire; and
- request confirmation from me on whether the medical records should remain available through the secure access portal for longer than the initial six-month period.

Tick Box ☐

If you have consented to your medical records being provided through the secure access portal, you have the right to withdraw this consent at any time by notifying MediData by email: notifyus@medi2data.com

FORM 2

INFORMATION FOR GP SURGERY VALIDATION USE ONLY

Section 1: Patient details

Last Name		Maiden name	
First Name		Title (i.e. Mr, Mrs, Ms, Dr)	
Date of birth		Address:	
Telephone number			
NHS number (if known)		Postcode:	

Section 2: Record requested

The more specific you can be, the easier it is for us to quickly provide you with the records requested. Record in respect of treatment for: (e.g. leg injury following a car accident)

Please provide me with a copy of records between the dates specified below:	
Please provide me with a copy of records relating to the condition specified below: (Please indicate the condition)	
Please provide me with a copy of all electronic records held: (Please indicate Yes or No)	

Section 3: Details and declaration of applicant

Please enter details of applicant if different from Section 1

Surname		Title (Mr, Mrs, Ms, Dr)	
Forename(s)		Address	
Telephone number			
Capacity in which requesting (Name of Organisation)			

Declaration

I declare that the information given by me is correct to the best of my knowledge and that I am entitled to apply for access to the health records referred to above under the terms of the GDPR.

Please tick:

- ☐ I am the patient
- ☐ I have been asked to act by the patient and attach the patient's written authorisation
- ☐ I have full parental responsibility for the patient and the patient is under the age of 18
and:
(a) has consented to my making this request, or
(b) is incapable of understanding the request (delete as appropriate)
- ☐ I have been appointed by the court to manage the patient's affairs and attach a certified copy of the court order appointing me to do so
- ☐ I am acting *in loco parentis* and the patient is incapable of understanding the request
- ☐ I am the deceased person's Personal Representative and attach confirmation of my appointment (Grant of Probate/Letters of Administration)
- ☐ I have written, and witnessed, consent from the deceased person's Personal Representative and attach Proof of Appointment
- ☐ I have a claim arising from the person's death (Please state details below)

Signature of applicant:Date:

You are advised that the making of false or misleading statements in order to obtain personal information to which you are not entitled is a criminal offence which could lead to prosecution.

Section 4: Proof of identity

Please indicate how proof of ID has been confirmed. Please select 'A' or 'B':

	Method in which identity is confirmed	Option taken	Documents attached
A	Attached copies of documents as noted in section 4A below	Yes/No	If Yes, please indicate which documents have been attached
B	Countersignature (section 4B). This should only be completed in exceptional circumstances (e.g. in cases where the above cannot be provided)	Yes/No	Please indicate reason why this section was completed

4A – Evidence

Evidence of the patient's and/or the patient's representative identity will be required. Please attach copies of the required documentation to this application form. Examples of required documentation are:

	Type of applicant	Type of documentation
--	--------------------------	------------------------------

A	An individual applying for his/her own records	One copy of identity required, e.g. copy of birth certificate, passport, driving licence, plus one copy of a utility bill or medical card, etc.
B	Someone applying on behalf of an individual (Representative)	One item showing proof of the patient's identity and one item showing proof of the representative's identity (see examples in 'A' above)
C	Person with parental responsibility applying on behalf of a child	Copy of birth certificate of child & copy of correspondence addressed to person with parental responsibility relating to the patient
D	Power of Attorney/Agent applying on behalf of an individual	Copy of a court order authorising Power of Attorney/Agent plus proof of the patient's identity (see examples in 'A' above)

4B – Countersignature

This section is to be completed by someone (other than a member of your family) who can vouch for your identity. This section may be completed if 4A cannot be fulfilled.

I (insert full name).....

Certify that the applicant (insert name).....

Has been known to me personally as foryears
(Insert in what capacity, e.g. employee, client, patient, relative etc.)

and that I have witnessed the signing of the above declaration. I am happy to be contacted if further information is required to support the identity of the applicant as required.

SignedDate

Name Profession.

Address

.....

Daytime telephone number

Additional notes

Before returning this form, please ensure that you have:

- Signed and dated this form 1 and form 2.
- enclosed proof of your identity or alternatively confirmed your identity by a countersignature
- enclosed documentation to support your request (if applying for another person's records)

Incomplete applications will be returned; therefore please ensure you have the correct documentation before returning the form.
